Education

2025–2028 **PhD in Statistics**, *Institut Polytechnique de Paris (ENSAE Paris)*, Palaiseau, France.
Research topics: Reinforcement Learning, Control. Advisors: Vianney Perchet, Hugo Richard, Marc Abeille.

2023–2024 **Master of Science, Probability and Statistics**, *Université Paris-Saclay*, Palaiseau, France.

2021–2024 **Engineering Degree, Applied Mathematics**, *ENSAE Paris*, Palaiseau, France.

2018–2021 **Classes Préparatoires aux Grandes Écoles (CPGE)**, *Lycée Champollion*, Grenoble, France.

Experience

Oct. 2024 – Present ***Research Scientist***, *Criteo*, Paris, France.
Working on Reinforcement Learning applied to Real Time Bidding. Developing bidding algorithms that take into account exogenous information/high-dimensional contexts.

May 2024 – Oct. 2024 ***Research Intern***, *Criteo*, Paris, France.
Worked on Local Differential Privacy applied to advertising, led to a publication to AISTATS.

Jun. 2023 – Sept. 2023 ***Research Intern***, *INRIA*, France.
Under the supervision of Pr. Jean-Christophe Pesquet. Worked on Monte Carlo methods for high-dimensional Bayesian inference. Developed robust gradient-based method with theoretical guarantees.

Jun. 2022 – Sept. 2022 ***Data Science Intern***, *STMicroelectronics*, Paris, France.
Developed forecasting and demand-planning models for supply chain optimization. Implemented time-series prediction pipelines and performance evaluation tools.

Selected Papers

2026 **Corentin Pla**, Hugo Richard, Marc Abeille, and Vianney Perchet. Near-optimal reinforcement learning with multi-step transition lookahead. In *preprint*, 2026.

2026 **Corentin Pla**, Hugo Richard, Marc Abeille, and Vianney Perchet. Minimax pac bounds for learning in exogenous contextual mdps. In *preprint*, 2026.

2026 Eugénie Patard*, **Corentin Pla***, Benjamin Heyman, and Patrick Loiseau. Dynamauction: A reinforcement learning environment for repeated auction with dynamic value. In *Annual Conference on Neural Information Processing Systems (NeurIPS)*, 2026.

2025 **Corentin Pla**, Hugo Richard, Marc Abeille, Nadav Merlis, and Vianney Perchet. On the hardness of reinforcement learning with lookahead. In *International Conference on Artificial Intelligence and Statistics (AISTATS)*, 2025.

2024 **Corentin Pla**, Hugo Richard, and Maxime Vono. Distribution-aware mean estimation under user-level local differential privacy. In *International Conference on Artificial Intelligence and Statistics (AISTATS)*, 2024.

*equal contribution

Skills

Languages: French (native), English (fluent)
Programming: Python (advanced)
